

## CPA Australia

Relocation of the Tasmanian Office of CPA Australia within an inner city 1980's building was completed in 2006.

As the office provides training and a resource base for the local CPA membership, the planning allows for free flowing interconnected activity spaces and discrete working spaces for staff.

Much of the furniture, fittings and a number of joinery items were reused from the previous tenancy which was designed by this office in 2001.

The fresh & bright interior helps create an internal focus for the tenancy.

Completed: 2006  
Builder: Tascon Constructions P/L  
Services: Kingston & Associates  
QS: Kevin Collins
