

St. James College

The new library at St James College forms a new focus and hub for the School and also helps to articulate the playground spaces for junior and senior students.

Funded under the BER program, the Library is bright, open and airy, and also very energy efficient.

In conjunction with the expansion and redevelopment of the Administration building the Library frames a gateway to the College.

Structure: Gandy & Roberts

Services: Kingston & Associates

Builders:

Library - Tascon Constructions P/L

Administration – JMC Construction Group
